Canyon Dam Spillway Gorge and Natural Bridge Caverns, in Comal County, Texas, are the focus of this new guidebook from the Bureau. Besides the geologic explanations of these two remarkable sites, a road log to and from Austin discusses various natural resources as well as cultural and historical sites along the route. Special attention is given specific localities that provide insights on ancient geologic processes, landscape evolution, and aquifer development near the Balcones Escarpment between Austin and San Antonio. This guidebook will be of interest to anyone curious about this beautiful part of Texas.

Canyon Dam Spillway Gorge and Natural Bridge Caverns
GEOLOGIC EXCURSIONS IN THE BALCONES FAULT ZONE, CENTRAL TEXAS

About the Authors

Charles M. ("Chock") Woodruff is a researcher at BEG, a consulting geologist, and a Senior Lecturer in UT’s Department of Civil, Architectural, and Environmental Engineering. His work on the geology of Central Texas spans more than four decades.

Eddie Collins is a Research Scientist Associate at the BEG, specializing in geologic mapping.

Eric Potter recently retired, served for 15 years as the associate director leading the Bureau’s Energy Research program.

Bob Loucks is a Senior Research Scientist at the BEG.
